In Order to reduce charge backs, it is necessary to have a completed credit card authorization form. Also, it is critical to capture an AVS (Address Verification System) match when processing the transaction. Entering in the billing zip code of the cardholder captures AVS. Submitting the cardholder's address and CVV code lowers risk further.

***All Orders Must Be Submitted and Paid for by June 26, 2015 to assure delivery before the 4th of July.

In the unlikely event an ordered item becomes sold out Captain Jim's Fireworks reserves the right to replace it with an item of equal or greater value.
